## 1. Foreword by the Mayor

The Service Delivery and Budget Implementation Plan (SDBIP) is based on the municipality's approved 2019/2020 Integrated Development Plan (IDP) review as approved by Council. The Integrated Development Plan (IDP) is the principal strategic instrument of a municipality that gives effect to its developmental mandate as enshrined in the Constitution of South Africa.

The concept of integrated planning has cemented itself as the strategic process within modern day local government as an effective way of ensuring that limited resources of a municipality are being optimised to foster partnerships between a vast array of stakeholders to collectively improve the livelihoods of communities.

When Council took office in 2016, they have developed short, medium and long-term goals, which included:

- Building adequate qualified, competent and skilled institutional capacity in the administration that will always strive to enhance good governance
- Put systems in place to improve effectiveness and efficiency in all service delivery processes
- Ensure long term financial sustainability in the municipality
- Gradually invest in replacement of dated infrastructure and acquisition of new infrastructure to improve service delivery

- Create an enabling environment for investment in the leading economic sectors and promote local economic development initiatives that would grow the economy and facilitate much needed sustainable job opportunities
- Create a caring environment that will foster the social well-being and improved living conditions of our communities

The 4th Generation IDP outlines the strategic objectives, focus areas and development priorities of the municipality. During its strategic planning process, Council designed a set of strategic objectives, which are aligned to the national strategic focus areas, as well as the Provincial Strategic Goals of the North West Provincial Government. The SDBIP utilises the strategies and priorities to align the performance indicators to the IDP. Its development, implementation and ultimate reporting by means of the Annual Performance Report is a key governance mechanism in the municipality's ability to secure a clean audit outcome. 2019/2020 IDP Review process has presented an opportunity to review the organisational strategic objectives as indicated below per each KPA:

Key Performance Area	Directorates / Units	Strategic Objective
Basic Services and Infrastructure Development	Infrastructure Development Services	To ensure access to sustainable services and infrastructure to all households
	Community Development Services	To ensure access to public amenities and to promote community safety, development and sustainable livelihoods
Financial Management and Viability	Budget and Treasury Office	To promote and ensure prudent financial management to enhance institutional viability and access to basic services
Institutional Development and Transformation	Human Resources and Corporate Services	To promote and enhance professional institutional development and transformation through improved human resources systems and technology
Local Economic Development	Local Economic Development and Planning	To promote and enhance economic development, growth and economic access
Good Governance and Public Participation	Strategic Services and Governance	<ul style="list-style-type: none"> <li>To promote and enhance effective governance systems for improved service delivery</li> </ul>
	<ul style="list-style-type: none"> <li>Internal Audit</li> <li>Communications</li> <li>IDP/PMS</li> <li>Special Projects</li> <li>Public Participation</li> <li>MPAC</li> </ul>	<ul style="list-style-type: none"> <li>To enhance and promote effective governance through credible communication systems</li> <li>To promote and enhance integrated municipal planning</li> <li>To promote institutional development, transformation and good governance</li> </ul>

These changes are meant to enhance integrated planning and performance for better outcomes going forward.

  
Councillor MA Monaheng  
Mayor

2. Final SDBIP Approval

*Moretele Local Municipality*

2019/2020 Final SDBIP Approval

The Final 2019/2020 Service Delivery and Budget Implementation Plan  
is hereby approved in terms of section 53(1)(c)(ii) of the  
Municipal Finance Management Act of 2003.

  
Cllr M A MONAHENG

Hon Mayor

10/09/2019  
Date  
SUGA O TITHE

### 3. Overview by the Accounting Officer

The Municipal Finance Management Act No. 56 of 2003 (MFMA) and National Treasury MFMA Circular No. 13 requires that municipalities must prepare a service delivery budget implementation plan (SDBIP) indicating how the budget and the strategic objectives of Council will be implemented. The SDBIP is prepared in terms of Section 53(1)(c)(ii) of the Municipal Finance Management (MFMA), National Treasury MFMA Circular No. 13 and the Budgeting and Reporting Regulation.

The SDBIP serves as a "contract" between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration in the applicable financial year. It provides the link between the mayor, the council (executive) and the administration, and facilitates the process for holding management accountable for its performance. It is therefore a management, implementation and monitoring tool that will assist the mayor, councillors, municipal manager, senior managers and community to monitor the municipality's performance on a quarterly basis.

The SDBIP will ensure that appropriate information is circulated internally and externally for purposes of monitoring the implementation of the budget, the execution of projects, the

  
M. T. J. Matshabe

Acting Municipal Manager

performance of senior management and the achievement of the strategic objectives set by council. The SDBIP sets in-year information, such as quarterly service delivery and monthly budget targets, and links each service delivery output to the budget of the municipality, thus providing credible management information and a detailed plan for how the municipality will provide such services with the inputs and financial resources that will be utilized.

The SDBIP will determine the performance agreements of the municipal manager and senior managers, including the outputs and deadlines for which they will be held responsible. Expenditure information (for capital projects and services) per municipal ward is provided so that each output can be broken down per ward, where it is possible to support ward councillors to provide feedback to their communities on progress with service delivery.

As mentioned before, it is a vital monitoring tool for the mayor and council to monitor in-year performance of the municipal manager and for the municipal manager to monitor the performance of all managers in the municipality within the financial year. This enables the mayor and municipal manager to be pro-active and take remedial steps if necessary in the event of poor performance.

#### 4. SDBIP Context

The Municipal Finance Management Act (MFMA) No. 56 of 2003 defines the "service delivery and budget implementation plan" as the detailed plan approved by the Mayor of the municipality in terms of Section 53 (1) (c) (ii) for implementing the municipality's delivery of municipal services and its annual budget and which must include the following: -

- a) Projections of each month of:
  - (i) revenue to be collected, by source; and
  - (ii) operational and capital expenditure, by vote;
- b) Service delivery targets and performance indicators for each quarter; and
- c) Any other matters that may be prescribed and includes any revisions of such plan by the Mayor in terms of section 54(1)(c).

In terms of Section 53 (i) (c)(ii) of the MFMA, the SDBIP must be approved by the Mayor of a municipality within 28 days of the approval of the budget

#### 4.1 Budget processes and related matters

Section 53 (4) requires that the mayor of a municipality must--

- (a) provide general political guidance over the budget process and the priorities that must guide the preparation of a budget;
- (b) co-ordinate the annual revision of the integrated development plan in terms of section 34 of the Municipal Systems Act and the preparation of the annual budget, and determine how the integrated development plan is to be taken into account or revised for the purposes of the budget; and
- (c) take all reasonable steps to ensure--
  - (i) that the municipality approves its annual budget before the start of the budget year;
  - (ii) that the municipality's service delivery and budget implementation plan is approved by the mayor within 28 days after the approval of the budget; and
  - (iii) that the annual performance agreements as required in terms of section 57(1)(b) of the Municipal Systems Act for the municipal manager and all senior managers-

(aa) comply with this Act in order to promote sound financial management;

(bb) are linked to the measurable performance objectives approved with the budget and to the service delivery and budget implementation plan; and

(cc) are concluded in accordance with section 57(2) of the Municipal Systems Act.

#### 4.2 Components of the SDBIP

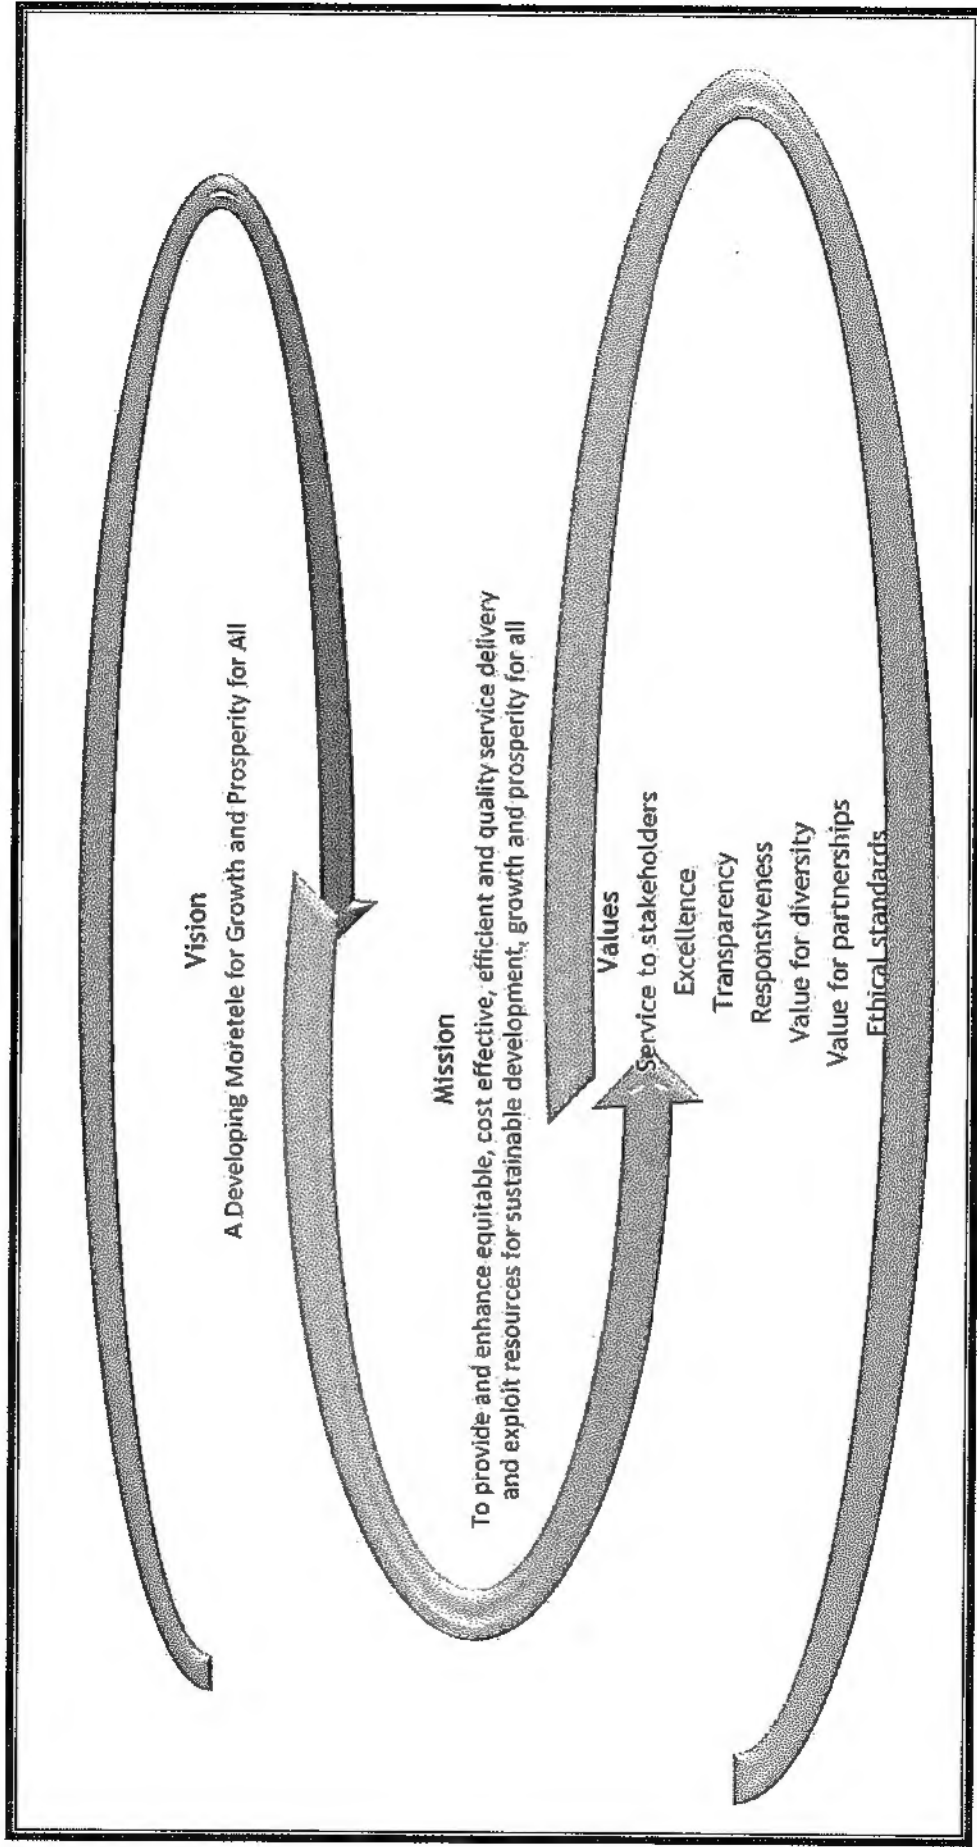

Municipal Finance Management Act Circular 13 provides that the Service Delivery and Budget Implementation Plan should comprise of the following:

Component	Description
Monthly Projections of Revenue to be Collected for each Source	<ul style="list-style-type: none"> <li>o The Municipality has to institute measures to achieve its monthly revenue targets for each source</li> <li>o These measures will enable the Municipality to assess its cash flow on a monthly basis with a view to undertaking contingency plans should there be a cash flow shortage or other challenges and positives</li> <li>o The monthly projection of revenue and expenditure per vote relate to the cash paid and reconciles with the cash flow statement adopted with the budget</li> </ul>
Monthly Projections of Expenditure and Revenue for each Vote	<ul style="list-style-type: none"> <li>o The focus under this component is a monthly projection per vote in addition to projections by source</li> </ul>
Quarterly Projections of Service Delivery Targets and Performance Indicators for each Vote	<ul style="list-style-type: none"> <li>o This component of the SDBIP requires non-financial measurable performance objectives in the form of service delivery targets and other indicators of performance</li> <li>o The focus is on outputs rather than inputs</li> <li>o Service delivery targets relate to the level and standard of service being provided to the community and include the addressing of backlogs in basic services</li> </ul>
Detailed Capital Budget Broken Down by Ward over Three Year	<ul style="list-style-type: none"> <li>o Information detailing infrastructural projects per ward containing project description and anticipated capital costs over the three-year period</li> </ul>

## 5. Municipality's Vision and Demographics

### 5.1 Municipal Vision

## 5.2 Demographics (Summary)

### Population

According to Community Survey (2016) the Moretele Local Municipality's population (as depicted in the figure below) has increased from 186 533 in 2011 to 191 306 by 2016, which represents a growth of 0,33% which is highly rural with 88% of the population residing in traditional areas; about 7,4% residing in urban areas and about 3% residing on smallholdings. Black Africans constitute 99, 5% of the Moretele Local Municipality's population. The most commonly spoken or dominating language is Setswana.

### Population distribution by Group

Community Survey 2016

Population distribution by Age

Population by Age

Community Survey 2016

The figure indicates that person between the ages of 15 and 59 constitutes the larger percentage of population structure. The demand for services will be higher in this age groups.

Distribution of households by number of household members

Number of members per household

Community Survey 2016

The figure indicates that there are 13098 households that has 1 member only in the household with less members in households with 5 members and above.

Number of Persons, Households and Average Household Size

Population Distribution

The figure indicates that Moretele has a higher proportion of persons between the age of 0 - 29. 21963 older persons were recorded which has a number of implications in relation to service provision and payment of services.

#### Living Conditions

The Moretele Local Municipality has a relatively rural population, with more than 88% of the population located in traditional areas. There are about 52 063 households in Moretele with an average household size of 3,6. More than 80% of the population lives in formal dwellings and about 15% of households occupy informal dwellings.

#### Settlement Type

The figure below indicates that 96% of the local population are located in a tribal/ traditional settlements with 4% found in urban areas.

#### Tenure Status

The figure below indicates that 72% of the households are owned and fully paid off and with about 23, 7% households occupied rent free. It should be noted that very few areas have been proclaimed and there is a larger percentage of households found in traditional councils areas, which means that security of tenure is not guaranteed for 72% as indicated.

### Development Implications

The municipality must initiate a consultative process which must lead to community resolutions towards guarantee of tenure rights including traditional council's areas.

### Distribution of households by Main Dwelling Type

#### Main Dwelling Type

### 5.3. Economic Analysis

The spatial development framework of the municipality is shaped by the rich agricultural history characterizing large pieces of land in the area. It is against this backdrop that agriculture has become a focal point in all economic development prospects for the municipality constituency.

The municipality has vast tracts of land which can be used to harness economic development opportunities. It is believed that livestock farming is the main type of farming activity that is carried out in the local municipality. The tourism sector in the Moretele Local Municipality is not well established.

Trading Services are key economic drivers of the local economy. The District economy is largely driven by mining primarily around Rustenburg and Brits. The weakness for the local economy is that there are no industries to boost the economy and create jobs to cushion poverty for the more than 25 000 people who are unemployed.

The real economic growth rate for the North West province in 2007 was 2.7% with the poverty gap standing at 8.8%. the contribution of Gauteng province into the South African Economy in 2011 was 34.5% whereas that of the North West Province at the same period was 6.5%, this implies that chances of finding employment in the province and the municipality in particular are very slim.

## Employment by sector

The figure indicates that general government services, other services, trade and manufacturing are the key drivers of employment creation in the municipality.

Source: Quantec Research, Standardised Regional, 2010

## Employment (15 - 64)

### Average Household Income

The figure indicates that 19,9% economically active persons have no income, with about 23,9% earning in the category of R9,601 to R19,600, followed by 21,8% of those earning in the R19,601 to R38,200 category.

### Development Implications

The figure suggests that the majority have the capacity to pay for services provided by the municipality. This challenges the municipality to improve on the revenue generation programmes implemented to take advantage of this emerging trend.

## 6. Municipal Mandate and Powers and Functions

### 6.1 Mandate

Section 152 of the Constitution of the Republic Mandates local government to perform the following functions as depicted by the figure below:

## 6.2 Powers and Functions

The table below provides a list of allocated powers and functions of the municipality in accordance with Schedule 4 B and 5 B of the Constitution (1996) and Sections 83, 84, 85 and 86 of the Municipal Structures Act.

Authorized Functions	Non-Authorized	
<ul style="list-style-type: none"> <li>• Air Pollution</li> <li>• Local tourism</li> <li>• Municipal Airport</li> <li>• Storm Water</li> <li>• Sanitation</li> <li>• Billboards and the Display of Advertisement in Public Places</li> <li>• Control of Public Nuisance</li> <li>• Fencing and Fences</li> <li>• Local Amenities</li> <li>• Local Sports Facilities</li> <li>• Municipal Parks and Recreation</li> <li>• Public Places</li> <li>• Street Lighting</li> </ul>	<ul style="list-style-type: none"> <li>• Building Regulation</li> <li>• Municipal airport</li> <li>• Municipal Public Transport</li> <li>• Trading Regulations</li> <li>• Beaches and Amusement Facilities</li> <li>• Cemeteries, Funeral Parlours and Crematoria</li> <li>• Control of Undertaking that Sell Liquor to the public</li> <li>• Licensing of dogs</li> <li>• Markets</li> <li>• Noise Pollution</li> <li>• Refuse Removal, refuse Dumps and solid waste disposal</li> <li>• Traffic and Parking</li> </ul>	<ul style="list-style-type: none"> <li>• Child Care Facilities</li> <li>• Municipal planning</li> <li>• Pontoons and Ferries</li> <li>• Water (potable)</li> <li>• Billboards and the Display of Advertisement in Public Places</li> <li>• Cleansing</li> <li>• Facilities for the accommodation, care and burial of animals</li> <li>• Licensing of undertakings that sell food to the Public</li> <li>• Municipal Abattoirs</li> <li>• Pounds</li> <li>• Street Trading</li> </ul>

## 7. Financial Plan 2019/2020 Final Budget

### Background

In term of Section 24(1) of the Municipal Finance Management Act (MFMA) No. 56 of 2003, the council of the municipality must for each year approve an annual budget for the municipality before the start of the financial year. Section 16(1) of MFMA states that, the council of a municipality must for each financial year approve an annual budget. Section 16(2) in order for a municipality to comply with subsection (1), the mayor of the municipality must table the annual budget at a council meeting at least 30 days before the start of the budget year.

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low- to high priority programmes so as to maintain sound financial stewardship.

The Municipality is embarking on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers mainly state owned. Some of these revenue collection strategies are through the new valuation roll which will be loaded before the end of the financial year. This new valuation roll will assist with new organ of state which were part of the area allocated to Moretele since the last demarcation. The impact might not be in this financial year, however the cost will be incurred in this financial year.

Budget 2019/2020 MTREF.

The main challenges experienced during the compilation of the Budget 2019/2020 MTREF can be summarized as follows:

- Financial Constraints resulting from investment lost through VBS bank.

- Low revenue collection
- The ongoing difficulties in the national and local economy;
- Protests which led to some municipal offices being burnt
- Key Positions not filled
- Aging and poorly maintained roads and electricity infrastructure;
- The need to reprioritize projects and expenditure within the existing resource envelope given the cash flow realities and with also ensuring the non-declining cash position of the municipality;
- ❖ Affordability of capital projects - Allocation for MIG was R112.3 million in 2018/19, it has increased to R114, 7-million 2019/20. The projection reflects R121.4-million in 2020/21 and slight increase to R130.9-million in 2021/22 financial year. Municipality has priorities water and sanitation on new projects and completion of MIG registered projects.
- ❖ W5IG allocation has increased from R60-million in 2018/19 R80-million in 2019/20 financial year, the grant will increase to R84.8 -million in 2020/21 and R89.8-million in 2021/22. The grant is for Municipal water Infrastructure Grant. The grant will assist in fast tracking water storage and reticulation projects.

The following budget principles and guidelines directly informed the compilation of the Final Budget 2019/20:

- The 2019/2020 Final Budget priorities and targets, as well as the base line allocations contained in that Final Budget were adopted as the upper limits for the new baselines for the 2019/20 Draft budget;
- Intermediate service level standards were used to inform the measurable objectives, targets and backlog eradication goals; In view of the aforementioned, the following table is a consolidated overview of the proposed 2019/20 Medium-term Revenue and Expenditure

DESCRIPTION	2019/2020	2020/2021	2020/2022
TOTAL EXPENDITURE	468 777 470,43	495 534 607,73	525 404 628,66
TOTAL OPERATING INCOME	656 279 003,45	695 075 340,86	564 191 948,65
<b>TOTAL OPERATING SURPLUS / DEFICIT</b>	<b>- 187 501 533,02</b>	<b>- 199 540 733,12</b>	<b>- 38 787 319,99</b>

The total revenue budget for 2019/20 is R656.2-million including capital budget compared with 2018/19 is R600.2-million which represents an increase in budget estimates of R65-million.

Moretele Municipality is still dependent on grants as a major contributor of revenue. The Gazetted Division of Revenue Act has confirmed the following transfers to the municipality:

The revenue grants are R541-million for 2019/20 funded by transfers from Provincial and National Departments. The following narrations indicates all revenue to be received and Charged in 2019/20 financial years;

The 2019/20 Financial Year (FY) operating expenditure is R468 million compared to R439- million for 2018/19 which indicates an increase of R38 million. This reflect a surplus of R 187.5-million.

# Revenue

DESCRIPTION	2019/2020	2020/2021	2020/2022

<b>OPERATING INCOME GENERATED</b>	<b>- 656 279 003,45</b>	<b>- 695 075 340,86</b>	<b>- 564 191 948,65</b>

Revenue generated from rates and services charges forms an insignificant percentage of the revenue basket for the Municipality, as the municipality is grant dependent. In the 2019/2020 financial year, revenue from rates and services charges totaled R87 million or 13% of the total Budget revenue. The revenue from grants amount to R541 million which is 82% of the total budget

## Operating Expenditure Framework

The Municipality's expenditure framework for the 2019/20 budget and MTREF is informed by the funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA and should there be any operational gains and efficiencies will be directed to funding the capital budget and other core services.

The following table is a high-level summary of the 2019/20 budget and MTREF (classified per main type of operating expenditure):

DESCRIPTION	2019/2020	2020/2021	2020/2022
EMPLOYEE SAL AND ALLOWANCES	118 846 987,92	126 458 223,79	134 867 695,67
SOCIAL CONTRIBUTIONS	23 976 692,26	25 863 230,44	27 583 135,27
COUNCILLORS RENUMERATION	22 978 021,00	24 356 702,26	25 818 104,40
GENERAL EXPENSES DEPARTEMENTS	139 776 759,51	146 225 335,72	154 525 976,75
GEN EXPEND BULK PURCHASES	37 590 296,28	39 845 714,06	42 236 456,90
GENERAL EXPEN - CONTR SERVICES	62 232 041,57	65 692 208,20	69 345 202,01
REPAIR AND MAINTENANCE	19 295 259,89	20 440 009,89	21 652 744,74
DEPRECIATION	44 081 412,01	46 653 183,39	49 375 312,93
<b>TOTAL EXPENDITURE</b>	<b>468 777 470,43</b>	<b>495 534 607,73</b>	<b>525 404 628,66</b>

The original budgeted allocation for employee related costs for the 2019/20 financial year was R165 million, which equals 35 per cent of the total operating expenditure. Based on the three-year collective SALGBC agreement. As part of the Municipality's cost reprioritization and cash management strategy vacancies have been significantly rationalized downwards and only key positions will be appointed.

The cost associated with the remuneration of councilors is determined by the Minister of Cooperative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the Municipality's budget.

The provision of debt impairment was determined based on an annual collection rate of 90 per cent and the Debt Write-off Policy of the Municipality, Auditor General issued finding with regards to the policy not being updated to suit the current situation. The current situation is that the municipality has been impairing 90% of it debtors every year while the 10% from previous are ballooning the net debtors balance which will results with overstated assets. The amended Debtors impairment policy has been attached for approval Depreciation and assets impairment for 2019/20 budget year amount equals to R91 million. While this expenditure is considered to be a non-cash flow item, it informed the total cost associated with rendering the services of the municipality, as well as the municipality's realistically anticipated revenues. Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy. Depreciation is widely considered a proxy for the measurement of the rate asset consumption

Bulk purchases are directly informed by the purchase of Water from City of Tshwane. The 2019/20 budget for bulk purchase is R37.5-million and the budget for 2018/19 is R35 million this indicate an increase of R 2million. This is due to the increase in supply, as previously City of Tshwane could not meet the required demand of water.

#### Repairs and maintenance

DESCRIPTION	2019/2020	2020/2021	2020/2022
MAINTENANCE BUILDINGS AND INSTALLATIONS	1 496 491,33	1 577 301,86	1 662 476,16
MAINTENANCE COMPUTERS	24 748,66	26 085,09	27 493,68

MAINTENANCE ROADS / STORMWATER	224 090,34	237 535,76	251 787,91
MAINTENANCE MACHINERY AND EQUIPMENT	21 183,58	22 327,49	23 533,17
MAINTENANCE SUNDRIES	400 000,00	421 600,00	444 366,40
MAINTENANCE VEHICLE	1 635 282,38	1 732 285,64	1 835 048,94
MAINTENANCE DWAF - MAGALIES WATER	6 507 815,41	6 898 284,33	7 312 181,39
MAINTENANCE SEWER TREATMENT PLANT	6 502 343,24	6 892 483,84	7 306 032,87
MAINTENANCE HIGH MAST AND MEDIUM LIGHTS	2 450 410,34	2 597 434,97	2 753 281,06
<b>TOTAL REPAIR AND MAINTENANCE</b>	<b>19 295 259,89</b>	<b>20 440 009,89</b>	<b>21 652 744,74</b>

The repairs and maintenance budget is supposed to be aligned to the need required to preserve and maintain the Municipality's current infrastructure. In terms of the Municipal Budget and Reporting Regulations, operational repairs and maintenance is not considered a direct expenditure driver but an outcome of certain other expenditures, such as remuneration, purchases of materials and contracted services. During the compilation of the 2018/2019 budget adjustment, the repairs and maintenance was reduced by R1.7 million when compared to the 2018/19 original budget. The total budget for Repairs and maintenance is R19 million which is 4% of the operational expenditure.

7.2 Monthly Projections of Revenue to be Collected for each Source

## 1. Foreword by the Mayor

The Service Delivery and Budget Implementation Plan (SDBIP) is based on the municipality's approved 2019/2020 Integrated Development Plan (IDP) review as approved by Council. The Integrated Development Plan (IDP) is the principal strategic instrument of a municipality that gives effect to its developmental mandate as enshrined in the Constitution of South Africa.

The concept of integrated planning has cemented itself as the strategic process within modern day local government as an effective way of ensuring that limited resources of a municipality are being optimised to foster partnerships between a vast array of stakeholders to collectively improve the livelihoods of communities.

When Council took office in 2016, they have developed short, medium and long-term goals, which included:

- Building adequate qualified, competent and skilled institutional capacity in the administration that will always strive to enhance good governance
- Put systems in place to improve effectiveness and efficiency in all service delivery processes
- Ensure long term financial sustainability in the municipality
- Gradually invest in replacement of dated infrastructure and acquisition of new infrastructure to improve service delivery

- Create an enabling environment for investment in the leading economic sectors and promote local economic development initiatives that would grow the economy and facilitate much needed sustainable job opportunities
- Create a caring environment that will foster the social well-being and improved living conditions of our communities

The 4th Generation IDP outlines the strategic objectives, focus areas and development priorities of the municipality. During its strategic planning process, Council designed a set of strategic objectives, which are aligned to the national strategic focus areas, as well as the Provincial Strategic Goals of the North West Provincial Government. The SDBIP utilises the strategies and priorities to align the performance indicators to the IDP. Its development, implementation and ultimate reporting by means of the Annual Performance Report is a key governance mechanism in the municipality's ability to secure a clean audit outcome. 2019/2020 IDP Review process has presented an opportunity to review the organisational strategic objectives as indicated below per each KPA:

Key Performance Area	Directorates / Units	Strategic Objective
Basic Services and Infrastructure Development	Infrastructure Development Services Community Development Services	To ensure access to sustainable services and infrastructure to all households To ensure access to public amenities and to promote community safety, development and sustainable livelihoods
Financial Management and Viability	Budget and Treasury Office	To promote and ensure prudent financial management to enhance institutional viability and access to basic services
Institutional Development and Transformation	Human Resources and Corporate Services	To promote and enhance professional institutional development and transformation through improved human resources systems and technology
Local Economic Development	Local Economic Development and Planning	To promote and enhance economic development, growth and economic access
Good Governance and Public Participation	Strategic Services and Governance <ul style="list-style-type: none"> <li>Internal Audit</li> <li>Communications</li> <li>IDP/PMS</li> <li>Special Projects</li> <li>Public Participation</li> <li>MPAC</li> </ul>	<ul style="list-style-type: none"> <li>To promote and enhance effective governance systems for improved service delivery</li> <li>To enhance and promote effective governance through credible communication systems</li> <li>To promote and enhance integrated municipal planning</li> <li>To promote institutional development, transformation and good governance</li> </ul>

These changes are meant to enhance integrated planning and performance for better outcomes going forward.

  
Councillor MA Monaheng  
Mayor

2. Final SDBIP Approval

*Moretele Local Municipality*

2019/2020 Final SDBIP Approval

The Final 2019/2020 Service Delivery and Budget Implementation Plan  
is hereby approved in terms of section 53(1)(c)(ii) of the  
Municipal Finance Management Act of 2003.

  
Cllr M A MONAHENG

Hon Mayor

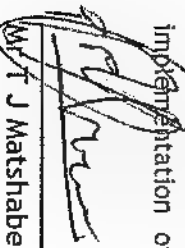

10/03/2020  
Date  
01/03/2020

### 3. Overview by the Accounting Officer

The Municipal Finance Management Act No. 56 of 2003 (MFMA) and National Treasury MFMA Circular No. 13 requires that municipalities must prepare a service delivery budget implementation plan (SDBIP) indicating how the budget and the strategic objectives of Council will be implemented. The SDBIP is prepared in terms of Section 53(1)(c)(ii) of the Municipal Finance Management (MFMA), National Treasury MFMA Circular No. 13 and the Budgeting and Reporting Regulation.

The SDBIP serves as a "contract" between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration in the applicable financial year. It provides the link between the mayor, the council (executive) and the administration, and facilitates the process for holding management accountable for its performance. It is therefore a management, implementation and monitoring tool that will assist the mayor, councillors, municipal manager, senior managers and community to monitor the municipality's performance on a quarterly basis.

The SDBIP will ensure that appropriate information is circulated internally and externally for purposes of monitoring the implementation of the budget, the execution of projects, the

Mr T J Matshabe  
Acting Municipal Manager

performance of senior management and the achievement of the strategic objectives set by council. The SDBIP sets in-year information, such as quarterly service delivery and monthly budget targets, and links each service delivery output to the budget of the municipality, thus providing credible management information and a detailed plan for how the municipality will provide such services with the inputs and financial resources that will be utilized.

The SDBIP will determine the performance agreements of the municipal manager and senior managers, including the outputs and deadlines for which they will be held responsible. Expenditure information (for capital projects and services) per municipal ward is provided so that each output can be broken down per ward, where it is possible to support ward councillors to provide feedback to their communities on progress with service delivery.

As mentioned before, it is a vital monitoring tool for the mayor and council to monitor in-year performance of the municipal manager and for the municipal manager to monitor the performance of all managers in the municipality within the financial year. This enables the mayor and municipal manager to be pro-active and take remedial steps if necessary in the event of poor performance.

#### 4. SDBIP Context

The Municipal Finance Management Act (MFMA) No. 56 of 2003 defines the "service delivery and budget implementation plan" as the detailed plan approved by the Mayor of the municipality in terms of Section 53 (1) (c) (ii) for implementing the municipality's delivery of municipal services and its annual budget and which must include the following: -

- a) Projections of each month of-
  - (i) revenue to be collected, by source; and
  - (ii) operational and capital expenditure, by vote;
- b) Service delivery targets and performance indicators for each quarter; and
- c) Any other matters that may be prescribed and includes any revisions of such plan by the Mayor in terms of section 54(1)(c).

In terms of Section 53 (1) (c)(ii) of the MFMA, the SDBIP must be approved by the Mayor of a municipality within 28 days of the approval of the budget

#### 4.1 Budget processes and related matters

Section 53 (4) requires that the mayor of a municipality must—

- (a) provide general political guidance over the budget process and the priorities that must guide the preparation of a budget;
- (b) co-ordinate the annual revision of the integrated development plan in terms of section 34 of the Municipal Systems Act and the preparation of the annual budget, and determine how the integrated development plan is to be taken into account or revised for the purposes of the budget; and
- (c) take all reasonable steps to ensure—
  - (i) that the municipality approves its annual budget before the start of the budget year;
  - (ii) that the municipality's service delivery and budget implementation plan is approved by the mayor within 28 days after the approval of the budget; and
  - (iii) that the annual performance agreements as required in terms of section 57(1)(b) of the Municipal Systems Act for the municipal manager and all senior managers-
    - (aa) comply with this Act in order to promote sound financial management;
    - (bb) are linked to the measurable performance objectives approved with the budget and to the service delivery and budget implementation plan; and

(cc) are concluded in accordance with section 57(2) of the Municipal Systems Act.

#### 4.2 Components of the SDBIP

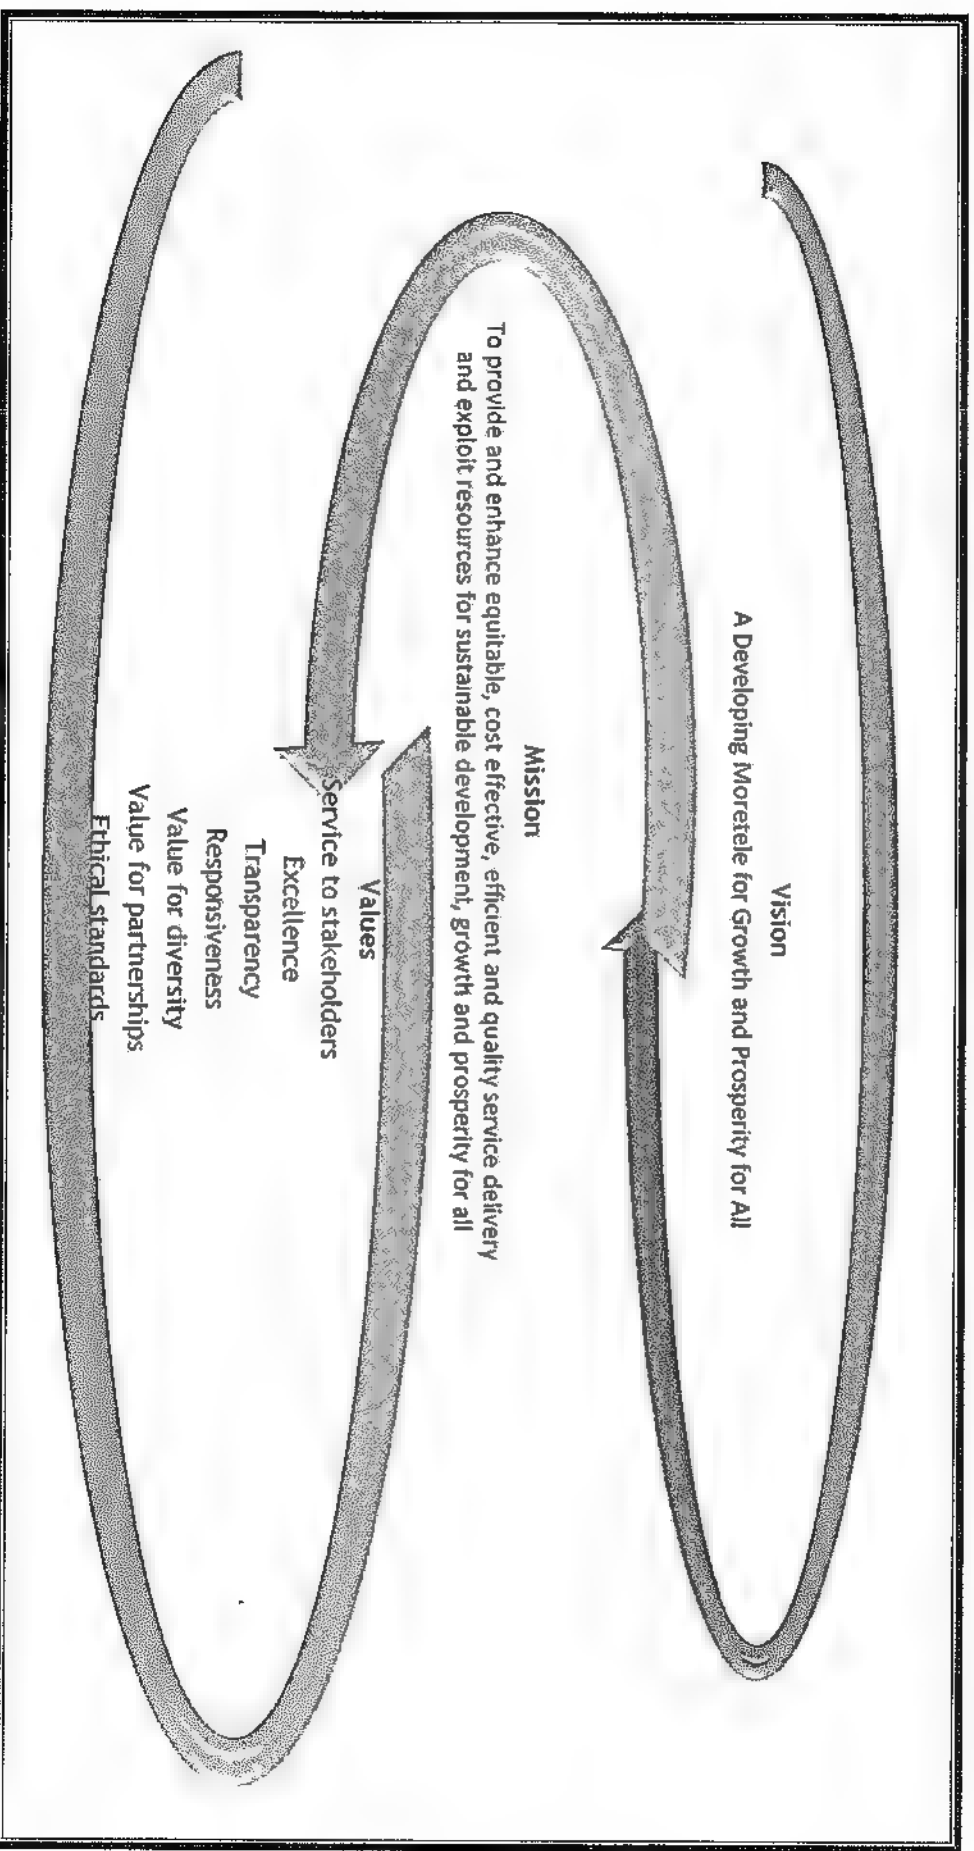

Municipal Finance Management Act Circular 13 provides that the Service Delivery and Budget Implementation Plan should comprise of the following:

Component	Description
Monthly Projections of Revenue to be Collected for each Source	<ul style="list-style-type: none"> <li>o The Municipality has to institute measures to achieve its monthly revenue targets for each source</li> <li>o These measures will enable the Municipality to assess its cash flow on a monthly basis with a view to undertaking contingency plans should there be a cash flow shortage or other challenges and positives</li> <li>o The monthly projection of revenue and expenditure per vote relate to the cash paid and reconciles with the cash flow statement adopted with the budget</li> </ul>
Monthly Projections of Expenditure and Revenue for each Vote	<ul style="list-style-type: none"> <li>o The focus under this component is a monthly projection per vote in addition to projections by source</li> <li>o This component of the SDBIP requires non-financial measurable performance objectives in the form of service delivery targets and other indicators of performance</li> </ul>
Quarterly Projections of Service Delivery Targets and Performance Indicators for each Vote	<ul style="list-style-type: none"> <li>o The focus is on outputs rather than inputs</li> <li>o Service delivery targets relate to the level and standard of service being provided to the community and include the addressing of backlogs in basic services</li> </ul>
Detailed Capital Budget Broken Down by Ward over Three Year	<ul style="list-style-type: none"> <li>o Information detailing infrastructural projects per ward containing project description and anticipated capital costs over the three-year period</li> </ul>

## 5. Municipality's Vision and Demographics

### 5.1 Municipal Vision

## 5.2 Demographics (Summary)

### Population

According to Community Survey (2016) the Moretele Local Municipality's population (as depicted in the figure below) has increased from 186 533 in 2011 to 191 306 by 2016, which represents a growth of 0,33% which is highly rural with 88% of the population residing in traditional areas, about 7,4% residing in urban areas and about 3% residing on smallholdings. Black Africans constitute 99, 5% of the Moretele Local Municipality's population. The most commonly spoken or dominating language is Setswana.

### Population distribution by Group

Community Survey 2016

Population distribution by Age

Community Survey 2016

The figure indicates that person between the ages of 15 and 59 constitutes the larger percentage of population structure. The demand for services will be higher in this age groups.

Distribution of households by number of household members

Community Survey 2016

The figure indicates that there are 13098 households that has 1 member only in the household with less members in households with 5 members and above.

Number of Persons, Households and Average Household Size

Population Distribution

The figure indicates that Moretele has a higher proportion of persons between the age of 0 - 29. 21963 older persons were recorded which has a number of implications in relation to service provision and payment of services.

### Living Conditions

The Moretele Local Municipality has a relatively rural population, with more than 88% of the population located in traditional areas. There are about 52 063 households in Moretele with an average household size of 3,6. More than 80% of the population lives in formal dwellings and about 15% of households occupy informal dwellings.

### Settlement Type

The figure below indicates that 96% of the local population are located in a tribal/ traditional settlements with 4% found in urban areas.

### Tenure Status

The figure below indicates that 72% of the households are owned and fully paid off and with about 23, 7% households occupied rent free. It should be noted that very few areas have been proclaimed and there is a larger percentage of households found in traditional councils areas, which means that security of tenure is not guaranteed for 72% as indicated.

### Development implications

The municipality must initiate a consultative process which must lead to community resolutions towards guarantee of tenure rights including traditional council's areas.

### Distribution of households by Main Dwelling Type

### 5.3. Economic Analysis

The spatial development framework of the municipality is shaped by the rich agricultural history characterizing large pieces of land in the area. It is against this backdrop that agriculture has become a focal point in all economic development prospects for the municipality constituency.

The municipality has vast tracts of land which can be used to harness economic development opportunities. It is believed that livestock farming is the main type of farming activity that is carried out in the local municipality. The tourism sector in the Moretele Local Municipality is not well established.

Trading Services are key economic drivers of the local economy. The District economy is largely driven by mining primarily around Rustenburg and Brits. The weakness for the local economy is that there are no industries to boost the economy and create jobs to cushion poverty for the more than 25 000 people who are unemployed.

The real economic growth rate for the North West province in 2007 was 2.7% with the poverty gap standing at 8.8%. the contribution of Gauteng province into the South African Economy in 2011 was 34.5% whereas that of the North West Province at the same period was 6.5%, this implies that chances of finding employment in the province and the municipality in particular are very slim.

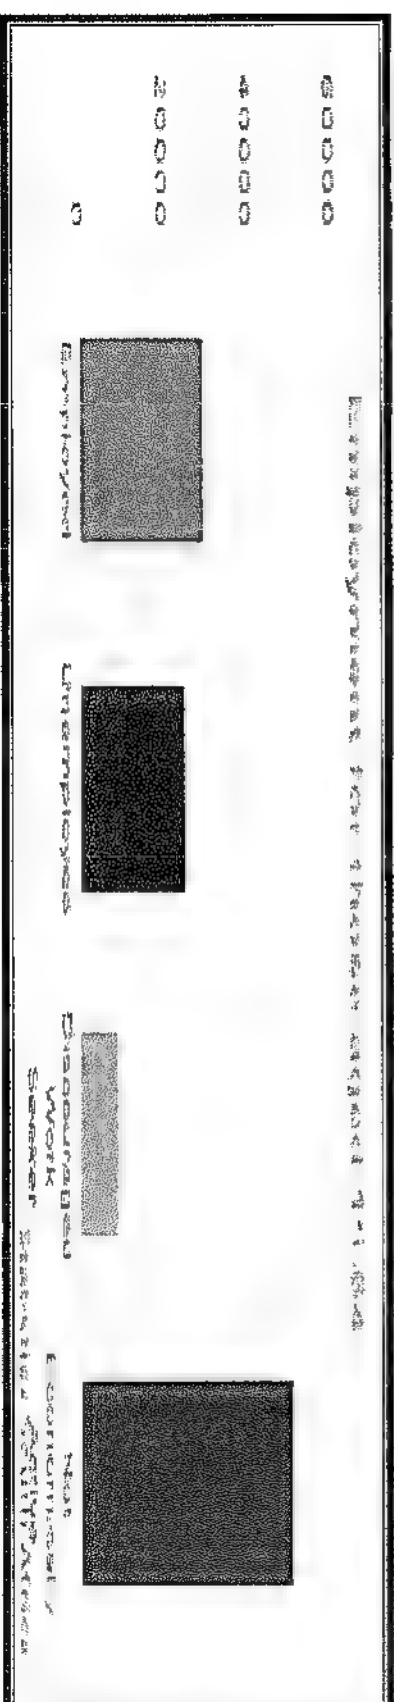

## Employment by sector

The figure indicates that general government services, other services, trade and manufacturing are the key drivers of employment creation in the municipality.

Source: Quantec Research, Standardised Regional, 2010

## Employment (15 - 64)

### Average Household Income

The figure indicates that 19,9% economically active persons have no income, with about 23,9% earning in the category of R9,601 to R19,600, followed by 21,8% of those earning in the R19,601 to R38,200 category.

### Development Implications

The figure suggests that the majority have the capacity to pay for services provided by the municipality. This challenges the municipality to improve on the revenue generation programmes implemented to take advantage of this emerging trend.

**6. Municipal Mandate and Powers and Functions**  
**6.1 Mandate**

Section 152 of the Constitution of the Republic Mandates local government to perform the following functions as depicted by the figure below:

## 6.2 Powers and Functions

The table below provides a list of allocated powers and functions of the municipality in accordance with Schedule 4 B and 5 B of the Constitution (1996) and Sections 83, 84, 85 and 86 of the Municipal Structures Act.

Authorized Functions			Non-Authorized
<ul style="list-style-type: none"> <li>• Air Pollution</li> <li>• Local tourism</li> <li>• Municipal Airport</li> <li>• Storm Water</li> <li>• Sanitation</li> <li>• Billboards and the Display of Advertisement in Public Places</li> <li>• Control of Public Nuisance</li> <li>• Fencing and Fences</li> <li>• Local Amenities</li> <li>• Local Sports Facilities</li> <li>• Municipal Parks and Recreation</li> <li>• Public Places</li> <li>• Street Lighting</li> </ul>	<ul style="list-style-type: none"> <li>• Building Regulation</li> <li>• Municipal airport</li> <li>• Municipal Public Transport</li> <li>• Trading Regulations</li> <li>• Beaches and Amusement Facilities</li> <li>• Cemeteries, Funeral Parlours and Crematoria</li> <li>• Control of Undertaking that Sell Liquor to the public</li> <li>• Licensing of dogs</li> <li>• Markets</li> <li>• Noise Pollution</li> <li>• Refuse Removal, refuse Dumps and solid waste disposal</li> <li>• Traffic and Parking</li> </ul>	<ul style="list-style-type: none"> <li>• Child Care Facilities</li> <li>• Municipal planning</li> <li>• Pontoons and Ferries</li> <li>• Water (potable)</li> <li>• Billboards and the Display of Advertisement in Public Places</li> <li>• Cleansing</li> <li>• Facilities for the accommodation, care and burial of animals</li> <li>• Licensing of undertakings that sell food to the Public</li> <li>• Municipal Abattoirs</li> <li>• Pounds</li> <li>• Street Trading</li> </ul>	<ul style="list-style-type: none"> <li>• Electricity</li> <li>• Fire fighting</li> <li>• Municipal Health Services</li> </ul>

## Background

In term of Section 24(1) of the Municipal Finance Management Act (MFMA) No. 56 of 2003, the council of the municipality must for each year approve an annual budget for the municipality before the start of the financial year. Section 16(1) of MFMA states that, the council of a municipality must for each financial year approve an annual budget. Section 16(2) in order for a municipality to comply with subsection (1), the mayor of the municipality must table the annual budget at a council meeting at least 30 days before the start of the budget year.

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low- to high priority programmes so as to maintain sound financial stewardship.

The Municipality is embarking on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers mainly state owned. Some of these revenue collection strategies are through the new valuation roll which will be loaded before the end of the financial year. This new valuation roll will assist with new organ of state which were part of the area allocated to Moretele since the last demarcation. The impact might not be in this financial year, however the cost will be incurred in this financial year.

Budget 2019/2020 MTREF.

The main challenges experienced during the compilation of the Budget 2019/2020 MTREF can be summarized as follows:

- Financial Constraints resulting from investment lost through VBS bank.

- Low revenue collection
- The ongoing difficulties in the national and local economy;
- Protests which led to some municipal offices being burnt
- Key Positions not filled
- Aging and poorly maintained roads and electricity infrastructure;
- The need to reprioritize projects and expenditure within the existing resource envelope given the cash flow realities and with also ensuring the non-declining cash position of the municipality;
- ❖ Affordability of capital projects - Allocation for MIG was R112.3 million in 2018/19, it has increased to R114, 7-million 2019/20. The projection reflects R121.4-million in 2020/21 and slight increase to R130.9-million in 2021/22 financial year. Municipality has priorities water and sanitation on new projects and completion of MIG registered projects.

❖ WSLG allocation has increased from R60-million in 2018/19 R80-million in 2019/20 financial year, the grant will increase to R84.8 -million in 2020/21 and R89.8-million in 2021/22. The grant is for Municipal water Infrastructure Grant. The grant will assist in fast tracking water storage and reticulation projects.

The following budget principles and guidelines directly informed the compilation of the Final Budget 2019/20:

- The 2019/2020 Final Budget priorities and targets, as well as the base line allocations contained in that Final Budget were adopted as the upper limits for the new baselines for the 2019/20 Draft budget;
- Intermediate service level standards were used to inform the measurable objectives, targets and backlog eradication goals; In view of the aforementioned, the following table is a consolidated overview of the proposed 2019/20 Medium-term Revenue and Expenditure

<b>DESCRIPTION</b>	<b>2019/2020</b>	<b>2020/2021</b>	<b>2020/2022</b>
<b>TOTAL EXPENDITURE</b>	468 777 470,43	495 534 607,73	525 404 628,66
<b>TOTAL OPERATING INCOME</b>	656 279 003,45	695 075 340,86	564 191 948,65
<b>TOTAL OPERATING SURPLUS / DEFICIT</b>	<b>- 187 501 533,02</b>	<b>- 199 540 733,12</b>	<b>- 38 787 319,99</b>

The total revenue budget for 2019/20 is R656.2-million including capital budget compared with 2018/19 is R600.2-million which represents an increase in budget estimates of R65-million.

Moretele Municipality is still dependent on grants as a major contributor of revenue. The Gazetted Division of Revenue Act has confirmed the following transfers to the municipality:

The revenue grants are R541-million for 2019/20 funded by transfers from Provincial and National Departments. The following narrations indicates all revenue to be received and Charged in 2019/20 financial years:

The 2019/20 Financial Year (FY) operating expenditure is R468 million compared to R439- million for 2018/19 which indicates an increase of R38 million. This reflect a surplus of R 187.5-million.

## Revenue

DESCRIPTION	2019/2020	2020/2021	2020/2022
SERVICE CHARGE	- 87 186 350,04	- 92 143 638,86	- 97 383 574,84
CLEARANCE CERTIFICATE	- 3 502,01	- 3 691,12	- 3 890,44
GOVERNMENT GRANTS AND SUBSIDIES	- 541 622 028,00	- 573 775 849,51	- 436 041 091,39

OTHER INCOME	- 616 924,36	- 817 132,79	- 861 257,97
<b>OPERATING INCOME GENERATED</b>	<b>- 656 279 003,45</b>	<b>- 695 075 340,86</b>	<b>- 564 191 948,65</b>

Revenue generated from rates and services charges forms an insignificant percentage of the revenue basket for the Municipality, as the municipality is grant dependent. In the 2019/2020 financial year, revenue from rates and services charges totaled R87 million or 13% of the total Budget revenue. The revenue from grants amount to R541 million which is 82% of the total budget

## Operating Expenditure Framework

The Municipality's expenditure framework for the 2019/20 budget and MTREF is informed by the funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA and should there be any operational gains and efficiencies will be directed to funding the capital budget and other core services.

The following table is a high-level summary of the 2019/20 budget and MTREF (classified per main type of operating expenditure):

<u>DESCRIPTION</u>	<u>2019/2020</u>	<u>2020/2021</u>	<u>2020/2022</u>
EMPLOYEE SAL AND ALLOWANCES	118 846 987,92	126 458 223,79	134 867 695,67
SOCIAL CONTRIBUTIONS	23 976 692,26	25 863 230,44	27 583 135,27
COUNCILLORS REMUNERATION	22 978 021,00	24 356 702,26	25 818 104,40
GENERAL EXPENSES DEPARTMENTS	139 776 759,51	146 225 335,72	154 525 976,75
GEN EXPEND BULK PURCHASES	37 590 296,28	39 845 714,06	42 236 456,90
GENERAL EXPEN - CONTR SERVICES	62 232 041,57	65 692 208,20	69 345 202,01
REPAIR AND MAINTENACE	19 235 259,89	20 440 009,89	21 652 744,74
DEPRECIATION	44 081 412,01	46 653 183,39	49 375 312,93
<b>TOTAL EXPENDITURE</b>	<b>468 777 470,43</b>	<b>496 534 607,73</b>	<b>525 404 628,66</b>

The original budgeted allocation for employee related costs for the 2019/20 financial year was R165 million, which equals 35 per cent of the total operating expenditure. Based on the three-year collective SALGBC agreement. As part of the Municipality's cost reprioritization and cash management strategy vacancies have been significantly rationalized downwards and only key positions will be appointed.

The cost associated with the remuneration of councilors is determined by the Minister of Cooperative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the Municipality's budget.

The provision of debt impairment was determined based on an annual collection rate of 90 per cent and the Debt Write-off Policy of the Municipality, Auditor General issued finding with regards to the policy not being updated to suit the current situation. The current situation is that the municipality has been impairing 90% of its debtors every year while the 10% from previous are ballooning the net debtors balance which will result with overstated assets. The amended Debtors impairment policy has been attached for approval Depreciation and assets impairment for 2019/20 budget year amount equals to R91 million. While this expenditure is considered to be a non-cash flow item, it informed the total cost associated with rendering the services of the municipality, as well as the municipality's realistically anticipated revenues. Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy. Depreciation is widely considered a proxy for the measurement of the rate asset consumption

Bulk purchases are directly informed by the purchase of Water from City of Tshwane. The 2019/20 budget for bulk purchase is R37.5-million and the budget for 2018/19 is R35 million this indicate an increase of R 2million. This is due to the increase in supply, as previously City of Tshwane could not meet the required demand of water.

#### Repairs and maintenance

DESCRIPTION	2019/2020	2020/2021	2020/2022
MAINTENANCE BUILDINGS AND INSTALLATIONS	1 436 491,33	1 577 301,86	1 662 476,16
MAINTENANCE COMPUTERS	24 748,66	26 085,09	27 493,68

MAINTENANCE HIGH MAST AND MEDIUM LIGHTS	1 450 410,34	2 597 434,97	2 753 281,06
	-	-	-
<b>TOTAL REPAIR AND MAINTENANCE</b>	<b>19 295 259,89</b>	<b>20 440 009,89</b>	<b>21 652 744,74</b>

The repairs and maintenance budget is supposed to be aligned to the need required to preserve and maintain the Municipality's current infrastructure. In terms of the Municipal Budget and Reporting Regulations, operational repairs and maintenance is not considered a direct expenditure driver but an outcome of certain other expenditures, such as remuneration, purchases of materials and contracted services. During the compilation of the 2018/2019 budget adjustment, the repairs and maintenance was reduced by R1.7 million when compared to the 2018/19 original budget. The total budget for Repairs and maintenance is R19 million which is 4% of the operational expenditure.

## 8. Service Delivery Objectives, Indicators and Targets

### Municipal objectives by Directorate

#### Infrastructure Development Services

- > To ensure access to sustainable services and infrastructure to all households

#### Community Development Services

- > To ensure access to public amenities and to promote community safety, development and sustainable livelihoods

#### Budget and Treasury Office

- > To promote and ensure prudent financial management to enhance institutional viability and access to basic services

#### Human Resources and Corporate Services

- > To promote and enhance professional institutional development and transformation through improved human resources systems and technology

#### Local Economic Development and Planning

- > To promote and enhance economic development, growth and economic access

#### Strategic Services and Governance

- > To promote and enhance effective governance systems for improved service delivery
- > To enhance and promote effective governance through credible communication systems
- > To promote and enhance integrated municipal planning
- > To promote institutional development and transformation and good governance

8.1 Basic Services and Infrastructure Development

8.1.1 Infrastructure Development Services

Infrastructure Development B Services

Key Functional Area		Sanitation								
Municipal Strategic Objective		To ensure access to sustainable services and infrastructure to all households								
Strategic Goal	Strategies	Key Performance Indicator	Baseline	Annual Budget	Annual Target	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Portfolio of Evidence
To enhance human dignity through adequate sanitation	Erect VIP ablution facilities at various wards	No. of VIP sanitation facilities erected by June 2020	936 constructed in various wards	R20m	1120 VIP constructed in 11, 16, 17, 21 & 22 by June 2020	Site handed over	100 sanitation facilities completed	520 sanitation facilities completed	1120 sanitation facilities completed	Completion certificates
	Erect VIP ablution facilities at various wards	No. of VIP sanitation facilities erected by June 2020	721 sanitation facilities constructed in the previous financial year	R24m	1300 VIP constructed in ward 1, 5, 12, 19, 23 & 24	Contractors appointed	Site handed over and established	500 sanitation facilities completed	800 sanitation facilities completed	Completion certificates

Key Functional Area		Roads and Stormwater								
Municipal Strategic Objective		To ensure access to sustainable services and infrastructure to all households								
Strategic Goal	Strategies	Key Performance Indicator	Baseline	Annual Budget	Annual Target	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Portfolio of Evidence
To promote and to ensure integrated and safe road networks	Construction of paved roads	Number of km paved roads constructed by June 2020	2km constructed in the previous financial year	R15m	2.5km of road paved in ward 2, 3 & 23 by June 2020	Contractors appointed	Site handed over & established	2.5km of layer works completed	2.5km paved	Completion certificates
	Construction of bridge	Number of m bridge constructed by June 2020	New	R15m	43m bridge constructed in Thulwe by June 2020	Earthworks & concrete foundation complete	Concrete walls complete	Concrete deck slab complete	Bridge complete	Completion certificate
	Maintenance of gravel roads	Number of km of local (gravel) roads maintained by June 2020	70km of roads maintained in the previous financial year	R22.4k	70km of roads maintained in 26 wards by June 2020	17.5km maintained in various wards	17.5km maintained in various wards	17.5km maintained in various wards	17.5km maintained in various wards	Completion reports

Key Functional Area		Public Lighting								
Municipal Strategic Objective		To ensure access to sustainable services and infrastructure to all households								
Strategic Goal	Strategies	Key Performance Indicator	Baseline	Annual Budget	Annual Target	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Portfolio of Evidence
To enhance public safety through sustainable public lighting	Construction and erection of community lighting for improved public safety	Number of high mast-lights erected by June 2020	10 high mast lights constructed in Ward 20	R5m	8 high mast lights erected in ward 13 by June 2020	Contractor appointed	Site handed over and established	8 foundations completed	8 high mast lights completed	Completion certificate

Key Functional Area		Community Facilities								
Municipal Strategic Objective		To ensure access to sustainable services and infrastructure to all households								
Strategic Goal	Strategies	Key Performance Indicator	Baseline	Annual Budget	Annual Target	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Portfolio of Evidence
To provide planning, design and supervision on the implementation of community facilities	To provide engineering support for the delivery of community facilities.	Number of community facilities constructed by June 2020	New	R5m	Community hall constructed in ward 6 by June 2020	Contractor appointed	Site handed over & established	Foundation & wall plate complete	Community hall complete	Completion certificate
To provide planning, design and supervision on the implementation of community facilities		Number of community facilities constructed by June 2020	3 sports complex completed in previous year	R6m	Sports complex constructed in Lebotlwane by June 2020	Consultant appointed	Contractor appointed	Boundary wall, abutment facility, borehole drilled	Soccer pitch, tennis court, sports complex complete	Completion certificate

Key Performance Area : Basic Services										
Key Functional Area		Water								
Municipal Strategic Objective		To ensure access to sustainable services and infrastructure to all households								
Strategic Goal	Strategies	Key Performance Indicator	Baseline	Annual Budget	Annual Target	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Portfolio of Evidence
To optimise access to water services	Erect piped water inside the yard to households without access	No. of households with piped water inside the yard in ward 3	1544 connected in the previous financial year	R10m	550 households with piped water inside the yard in ward 3 by June 2020	Contractor appointed	Site handed over & established	150 households connected	550 households connected	Completion certificate
				R3.1m	100 households with piped water inside the yard in Mmakaunyane by June 2020	Contractor appointed	Site handed over & established	3.7km Water reticulation completed	100 households connected	Completion certificate
				R10m	500 households with piped water inside the yard in Lebotlwane RDP by June 2020	Contractor appointed	Site handed over & established	100 households connected	500 households connected	Completion certificate
		No. of households with piped water inside the yard in Lebotlwane RDP	1544 connected in the previous financial year	R10m	184 households with piped water inside the yard in Dikgophaneng & Lekgolo by June 2020	Contractor appointed	Site handed & established	50 households connected	184 households connected	Completion certificate
Connect additional households to the water networks		No. of households with piped water inside the yard in Lekgolo & Dikgophaneng								
		Reduce unaccountable water levels	New	R14m	Reduction of unaccountable water levels in ward 13, 14, 15, 16, 17, 18 & 22 by June 2020.	Contractor appointed	Site handed over & established	300 yard connections completed	11 bulk water meters installed.	Completion report
Drill boreholes to households without access		Number of boreholes drilled erected by June 2020	Rungtesloot, De-Grens, Little, Dipetlwane, etc boreholes in previous financial year	R5m	5 boreholes drilled in Moeka, Mofa, Kromkuil, Phedile by June 2020	Assessment report	5 boreholes drilled & tested	Water pipes connected	5 boreholes energised	Completion report
